# 2 Hour Child and Baby First Aid for Parents

**£150** ex VAT  
(For up to 20 persons)

The first aid for baby and child course is perfect for parents, expectant parents, grandparents, babysitters, foster parents and carers of babies and young children. If you care for a child professionally please look at our L3 12 hour Paediatric course. Suitable for people 16 years and over, this course is designed to teach you a range of first aid skills to cope with emergency situations for babies and children from birth to puberty.

## **Why should I attend?**

In a typical year up to half of infants under 12 months and a quarter of older children will attend hospital. Bumps and falls are inevitable and thankfully most aren't serious, but it is important that you know what to do if you find yourself in a first aid emergency.

This course will teach you simple life-saving techniques and give you the opportunity to practice the skills as you learn, so you will feel more confident should you need to use them in real life.

## **Course content includes:**

- Dealing with an emergency
- Choking baby and child
- Unconscious breathing baby and child
- Unconscious not breathing baby and child
- Fever and febrile seizures
- Head injury
- Burns
- Swallowed something harmful
- Nosebleed

## **The Course duration:**

2 hours

## **Time:**

Anytime that suits you

## **Qualification:**

First aid for baby and child NDA certificate of learning. We recommend you refresh your skills after 12 months. This course is not appropriate for anyone requiring first aid training for the workplace

## **Pre-requisites:**

We include practical exercises to help give you confidence in dealing with real life situations
